

REMARKS

Please enter the paper copy and computer readable copy of the Sequence Listing filed herewith. No new matter has been added.

The application, as filed, did not recite sequences with the following identifiers: 62, 63, 64, 263, and 264. The above amendment to the specification has been entered to renumber identifiers to provide continuous numbering for sequences in the specification and the sequence listing. The following sequences are renumbered:

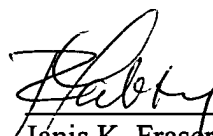

Number in application as filed	new Number	Location in Specification
265	62	page 42
266	63	page 42
262	64	FIG. 25, pages 39 & 50

Claims 4, 5, 10, 11, 19, and 21 are amended to correct a typographical error in the listing of DNA contacting residues. Support for the amendment can be found, e.g., at page 44, paragraphs 2 and 3. Please examine the claims in view of the amendment.

Please apply any other charges or credits to deposit account 06-1050.

Respectfully submitted,
